STRONG VALUES

STRONG FAMILIES

STRONG NATION

1 Right to Life: A Prime Fundamental Freedom

"...No person shall be intentionally deprived of his life..." - Article 33.1 - The Constitution of Malta

Malta's traditional parties no longer seem to be willing to uphold this Constitutional obligation on our behalf and are instead promoting a culture of death: assisted suicide (euthanasia), murder of the unborn (abortion), and other diabolical agendas. This goes against the absolute and overwhelming majority of the Maltese people's wishes, as our laws and international treaties show.

As a Christian, Socio-Conservative party, ABBA will defend this prime fundamental freedom as guaranteed by our Constitution. We insist on our Great Commission for Malta to be a light to the rest of the world by rejecting this foreign/alien imposition outright and promoting a culture of life.

Once elected into Parliament, ABBA pledges that our first bill will be to amend the above quoted wording from Article 33 to "No person shall **from conception** be intentionally deprived of his life..." thereby guaranteeing that the wish of the Maltese people is honoured and that abortion is not legalised in Malta.

2

Freedom of the Individual: Recognition & Respect

"...every person in Malta is entitled to the fundamental rights and freedoms of the individual..." - Article 32 - the Constitution of Malta

The past two legislatures of a corrupt government and an inept opposition has led to the continual degradation of our fundamental rights and freedoms. Malta faces a very dark future unless this is reversed in the coming elections. Basic rights have all been undermined by the state, and not protected by the opposition, as obliged by the Constitution.

These rights include: the right to life, freedoms of conscience and worship, expression, assembly, association and movement, protections from: arbitrary arrest or detention, forced labour, inhumane treatment, deprivation of property without compensation, discrimination, protection for privacy of home or other property, provision to secure protection of law, prohibition of deportation and enforcement of protective provisions.

This inexcusable action, which breaches the Constitution of Malta, shames the two traditional parties. Malta deserves better.

ABBA will be the real-time moral safety valve in Parliament, to ensure the rights of the Maltese citizens are fully restored and protected.

3

Justice, Law & Order: Restoring Dignity to Malta

"...Any court or other adjudicating authority prescribed by law, for the determination of the existence or the extent of civil rights or obligations shall be independent and impartial..." - Article 39.2 - the Constitution of Malta

The government and opposition are meant to administer on behalf of all of the Maltese people who elected them as their representatives in our parliament. Their job is to administer the wealth of our nation, ensuring its fair distribution. They are to maintain law, order & democracy.

Present parliament enacts laws against our mandates, values, culture and identity. They rubber stamp EU regulations and directives which openly impose harmful agendas on us. Rights that we have peacefully enjoyed for decades are being taken away from us. Leading up to the next elections, there is now a very clear push for the state to overrule even the right to life itself, via the murder of the unborn (abortion/female reproductive rights) and assisted suicide (euthanasia).

ABBA wants to be the catalyst of change. Defying intimidation and hopelessness, we are working to change the harmful two-party electoral system which no longer represents the people.

We wish to see a coalition government where no single party may have absolute power to do as it wishes, where a real-time moral safety valve exists as it does in every other European country.

A coalition government will restore proper and regulated governance. We are working hard for Malta to return to its former international high-standing, where peace and stability was enjoyed by all.

We want our full dignity back. By God's grace, we will achieve this in the forthcoming legislature through our sound policies and clear direction. Strong values, strong families, strong nation.

4

Quality of Living: Health, Comfort & Enjoyment of Life

"...The State shall promote the equal right of men and women to enjoy all economic, social, cultural, civil and political rights..." - Article 14 - Constitution of Malta

The corruption in this country has reached an all-time high. This led to decent civil society being deprived of a quality of life it deserves, whilst the elite few seem untouchable. The limited environment that Malta enjoys has also been ruined with the clear blessings of the institutions which exist to protect it.

Furthermore, the government's open-door migration policy goes hand in hand with the quest to attract cheap labour for business enterprises. This is having two direct consequences on the labour market. Job competition has led to wage contraction. Lower wages for working class and mid-blue collar have created housing problems for the working class families who cannot afford skyrocketing property and rental prices. They cannot be expected to share a flat with several others, as many migrant workers do.

The above has led to Malta being greylisted by the international community, creating uncertainty and financial insecurity. We are fast approaching a time of unprecedented turmoil.

ABBA's election into Parliament and participation in government will be a clear signal to the international community that it is not 'business as usual' with the present corrupt government and an inept opposition. A coalition government that includes ABBA MP's will ensure a road to recovery of law and order, in the shortest time.

5

Sovereignty: The Supremacy of the Constitution of Malta

"...if any other law is inconsistent with this Constitution, this Constitution shall prevail and the other law shall, to the extent of the inconsistency, be void..." - Article 6 - Constitution of Malta

The European Parliament (EP) is openly declaring war on the Constitutions of the EU Member States. Not only is it abusing its limited authority and trying its best to impose the murder of the unborn (abortion) and assisted suicide (euthanasia) on Malta, but it has now declared EU primacy over national law. It is crucifying Poland and Hungary for daring to stand up against the popularisation and normalisation of homosexual and transgender behaviour, and harmful gender indoctrination via state education.

Furthermore, the EP dares challenge the ruling of the Polish Constitutional Courts. In short, it is totally ignoring and wiping out a sovereign people's 'law and order' mechanism, simply because it wants to impose its own agendas. The Constitution of Malta prohibits such an illegal action by the EP, but neither our government, nor the opposition, has dared voice protest to the EU's crushing of the sovereignty of an EU Member State.

Our representatives in Parliament all swear to protect our Constitution and sovereign rights. Their total silence on this nationally important principle represents their clear intent to abdicate our Sovereignty to the EU. Neither the EP's illegal robbery of our Sovereignty nor our parliamentary representatives' abeyance to their new masters is acceptable to ABBA.

Malta must retain its full sovereignty and God-given rights to decide on our present and the future of our citizens. ABBA condemns and refutes the EU's latest action. We will make alliances with likeminded groups and parties in other European states in order to ensure that Malta retains full Sovereignty and decision-making power.
